Senior Full-Stack Engineer

📍 Noosa, QLD

Senior software engineer with 10+ years of experience in B2B SaaS. I work across the full stack and product lifecycle, from early ideas through to production and ongoing maintenance. I enjoy owning complex problems, making pragmatic technical decisions and shipping reliable software.

EXPERIENCE & PRODUCTS

Senior Software Engineer - UPowr

Feb 2024 - Present

- Lead technical discussions and design decisions for cross-cutting platform capabilities, including authentication, integrations, SDKs and API design
- Build and ship Go and TypeScript services, REST and GraphQL APIs, and customer-facing applications from discovery through to production
- Design and implement durable workflows with Camunda and Temporal
- Own production reliability through end-to-end testing, observability, on-call and incident response
- Build shared technical ownership through design discussions, code reviews and documentation across platform-critical areas
- Prototype and evaluate AI-assisted workflows, with a focus on reliability, guardrails and safe production use

Senior Software Engineer - Descartes

Sep 2019 - Feb 2024

- Led technical design and delivery across customer-facing applications and backend services, helping shape architecture, patterns and implementation decisions
- Built and maintained production systems across TypeScript, Go, Next.js, GraphQL, Kafka and AWS in a multi-tenant, event-driven architecture
- Led the design and delivery of production systems at scale, handling millions of customer interactions

Senior Full Stack Developer at Procurement Leaders

Feb 2016 - Jun 2019

- Led the development team, coaching engineers and owning key technical decisions, solution design and code reviews
- Shipped full-stack products across TypeScript, Node.js, React, Next.js, GraphQL and REST APIs
- Owned parts of the delivery infrastructure, including CI/CD, Linux/Nginx hosting and production deployments

E-Commerce Manager at HoundHouse

May 2015 - Nov 2015

Web Developer at AD Marketing

Apr 2015 - Nov 2015

Web Developer at M&D Employment

Jun 2013 - Nov 2015
